## Performing an Inventory Transfer

Some venues have multiple locations. I.e., Concession 1, Concession 2, Warehouse etc. In this scenario, you can **"Transfer Items"** from one location to another. Here, we will walk through the steps of this procedure.

1. After you have logged into the iPad, tap the "Inventory" button on the "Home Screen."

2. The **"Select an Inventory Action"** screen will appear. Tap the **"Transfer Items"** button.

	Transfer Items	

3. The **"Transfer From/Transfer To"** screen will appear. Tap the **"Transfer From"** box. *NOTE: The "Transfer To" box is already filled out. This is because the "Transfer To", is the location the iPad you are working from is currently logged into. You are pulling items from the "Transfer From" location to your current location.*
